PhD Students and Postdoc needed for 3D vision

A PhD Student is being sought to work on active vision for 3D tracking. The candidate should have a master degree in computer science or electrical engineering. Research experiences in computer vision or robotics would be advantageous.

A Postdoc Research Fellow is also being sought. The candidate should have a PhD degree in computer science or electrical engineering, with a strong publication records.

Interested persons can send CV including publication list to the PI (Email: meyfli@cityu.edu.hk).

For details, please visit the PI’s (Dr Y. F. Li) home page at http://personal.cityu.edu.hk/~meyfli/
